(54) Title: SIGNALLING DEVICE TO MAKE THE ADMINISTERING OF MEDICAL PREPARATIONS EASIER

(57) Abstract: A signalling device to make the administer-
ing of medical preparations easier, especially to signal the
set administering time point of medicines, which contains a
house, a data input unit placed in the house, a display unit
and memory unit as well as a control unit in connection with
these and a power supply, the memory unit has a basic stor-
age register and a personal data storage register wherein the
memory unit (30) is supplemented with a time data storage
register (32), while the control unit (20) is supplemented with
a counting part-unit (21) and comparison part-unit (22), fur-
thermore, the control unit (20) is connected to an alarm part-
unit (50), the input (22a) of the comparison part-unit (22)
is connected to the time data storage register (33) and the
counting part-unit (21), and the output (22b) of the compar-
ison part-unit (22) is directly connected to the alarm part-unit
(50) or via the control unit (20).

* Special categories of cited documents :

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier document but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
